DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a process cartridge having an electrode member for supplying power from the image forming apparatus to the developing roller comprising a conductive substrate; a hole provided in the substrate having an end larger than the width; an elastic portion bent and raised along the hole contacting the electrode; a rib provided posited and along the end the hole; an engagement hole for mounting the electrode member to a bearing of the developing roller; and a contact portion making contact with the inner surface of the developing roller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nomura et al, Michlin et al, and Toba et al teach other structures of an electrode for supplying power from the image forming apparatus to the processing cartridge.
